## *Make Your Residents Smile*

My name is Mimi Hamilton and I am a Floral Designer. I have over 25 years experience designing with fresh, silk, and dried flowers.

During this past year, I have been sharing my love of flowers by conducting classes and demonstrations at various assisted living homes and churches throughout Cobb and surrounding counties.

The look of pride and the sense of accomplishment are evident in their smiles at the end of each class.

Whether guided by my hands each step of the way, accompanied by a family member or aide, or just following along as I demonstrate my own project, I know that they are happy.

## *Demonstrations & Classes*

I want to offer you the chance to provide your residents with the same feeling as other residents have gotten in my classes.

The first step is to contact me. Together, we can plan for your classes or demonstration.

Classes are \$30 per resident, which includes all the materials for that project. All the pre-cutting and gluing is done in advance to facilitate all levels of dexterity.

On the day of the class, each participant will have his or her materials laid out and ready for them to follow along with me.

Each class is about one and a half hours long. During that time, I demonstrate the assembly of the project and assist the residents as needed in the assembly of theirs.

Each resident then has an arrangement to decorate their room or share with a loved one. My completed project will be left to be enjoyed by everyone.

Demonstrations last approximately an hour and fully demonstrate the assembly of a project. Demonstrations are \$75 and the resulting arrangement is left to be enjoyed by all.

My projects have included wreaths, table arrangements, memorials, and seasonal pieces.

Call me at (678) 324-1336 to make plans for your class.

*You Will be Glad You Did,  
and So Will Your Residents!*
